OSI Group Supports PAACO Animal Welfare Auditor Training

Aurora, IL, USA, June 29, 2015 – OSI Group is among more than two dozen industry stakeholders that have committed financial support to the Professional Animal Auditor Certification Organization (PAACO). This is the third year in a row that OSI has supported this important effort to help train auditors in the industry. In 2013, the company announced their ongoing sponsorship of the organization.

The annual Poultry Welfare Auditor Training Course was held August 11-13, 2015 in Raleigh, North Carolina, in cooperation with the Prestage Department of Poultry Science at North Carolina State University. As the first step in the process of becoming a PAACO-certified poultry welfare auditor, this popular 3-day course featured an impressive array of instructors.

PAACO is an organization of five animal industry organizations with extensive expertise on best management practices and current science in animal agriculture. The organization's purpose is to promote the humane treatment of animals through education and certification of animal auditors as well as the review and/or certification of animal audit instruments, assessments and programs.
